PROFESSIONAL SUMMARY

Information Technology professional with 7+ years of experience supporting technology-driven operations, enterprise systems, data quality, and process optimization. Experienced analyzing complex datasets, troubleshooting workflow issues, maintaining data integrity, and improving operational efficiency across high-volume environments. Comfortable learning new technologies quickly and collaborating with cross-functional teams to solve real-world operational challenges. Recently earned a Bachelor's degree in Information Technology and completed a software development bootcamp, bringing a strong foundation in technology, analytics, and continuous improvement.

CORE COMPETENCIES

- Operational Excellence
- Data Analysis
- Process Automation
- Enterprise Software
- Quality Assurance
- Workflow Optimization
- Root Cause Analysis
- Technical Documentation
- Information Management
- Cross-functional Collaboration
- Problem Solving
- Microsoft Excel
- SQL Fundamentals (if learned in bootcamp)
- Software Development Fundamentals
- Data Validation
- Process Improvement
- Systems Administration
- Digital Records Management

- Technology Adoption

PROFESSIONAL EXPERIENCE

Contract Administration Specialist

Blue Cross Blue Shield of Tennessee
2019 – Present

- Manage the preparation, execution, and maintenance of provider contracts utilizing Contract Lifecycle Management (CLM) and Business Process Management (BPM) systems.
- Coordinate contract workflows while ensuring compliance with organizational policies and healthcare regulations.
- Monitor contract renewals, amendments, and expirations while maintaining complete and accurate documentation.
- Analyze contract data to identify discrepancies and resolve administrative issues before implementation.
- Support provider onboarding and credentialing activities through accurate documentation and system updates.
- Collaborate with internal departments to improve contract processing efficiency and reduce turnaround times.
- Maintain confidential provider information while ensuring data integrity across multiple enterprise systems.

Key Accomplishments

- Improved contract accuracy through detailed quality reviews.
- Maintained exceptional attention to detail while managing high-volume workloads.
- Supported successful implementation of provider agreements across multiple business units.

Data Entry Auditor / Quality Examiner

Blue Cross Blue Shield of Tennessee
2019 –2020

- Performed detailed quality assurance reviews on thousands of records to ensure data accuracy prior to production processing.
- Identified root causes of recurring processing errors and collaborated with internal teams to improve operational efficiency.
- Validated large datasets using established quality standards.
- Investigated system discrepancies and documented corrective actions.
- Supported continuous improvement initiatives through trend analysis and quality reporting.
- Maintained exceptional accuracy while meeting aggressive production goals.

Data Transcriber

Internal Revenue Service
2018 –2020

- Processed high-volume confidential tax records while maintaining exceptional accuracy.
- Validated source documentation and resolved inconsistencies before electronic processing.
- Utilized Microsoft Excel and internal databases to track workflow progress and maintain operational visibility.
- Consistently met production goals while ensuring compliance with federal regulations.
- Applied analytical thinking to identify incomplete or inaccurate documentation prior to submission.
- Protected sensitive taxpayer information following federal confidentiality regulations.

EDUCATION

American Public University

Bachelor of Science

Information Technology

Minor: Management

Graduated: August 2025

Frontend Simplified (FES)

Bootcamp for Coding

TECHNICAL SKILLS

- BPM
- CLM
- Facets
- Wipro
- Marx
- Microsoft Excel (Advanced)
- Word
- PowerPoint
- Outlook
- HTML
- CSS
- JavaScript
- Git/GitHub
- Responsive Design
- Data Validation
- Database Fundamentals
- Workflow Analysis
- Quality Assurance
- Data Integrity

Technical Projects

- Built responsive web applications using HTML, CSS, and JavaScript.
- Debugged front-end issues and optimized user experience.
- Used Git/GitHub for version control and project management.
- Applied software development concepts to improve workflow efficiency and problem solving.

PROFESSIONAL STRENGTHS

- Rapid Technology Adoption
- Systems Thinking
- Process Optimization
- Analytical Problem Solving
- Continuous Learning
- Cross-functional Collaboration
- Adaptability
- Data-Driven Decision Making
- Operational Excellence
- Technical Curiosity
